CITY OF GENEVA
PUBLIC SAFETY BUILDING
Adaptive Reuse

New entry

Bell & Spina was commissioned to conduct a study of the Court Facilities in City Hall, in order to bring them into compliance with the NYS Office of Court Administrations Codes.

The study included issues of:

- Life Safety
- Security
- Environment
- Handicapped Accessibility
- Requirements for various court functions

The study was expanded to include a Facilities Analysis of the entire City Hall along with a Program Analysis of all departments.

New courtroom

Site prior to renovations

Bell & Spina determined that a former retail store and garage could be converted into a new Public Safety Building, housing the City Police Department, including holding facilities and City Court functions.

Bell & Spina's solution fit the City's functional needs while revitalizing the community.
