NEW YORK STATE FAIR Master Plan

Aerial of fairgrounds

The New York State Fair is one of the largest in the nation and attracts over 1 million visitors in 12 days. The planning for an ever-changing venue is a year long process. For over 25 years, Bell & Spina provided their services as the Fair planners.

Services to the fair included:

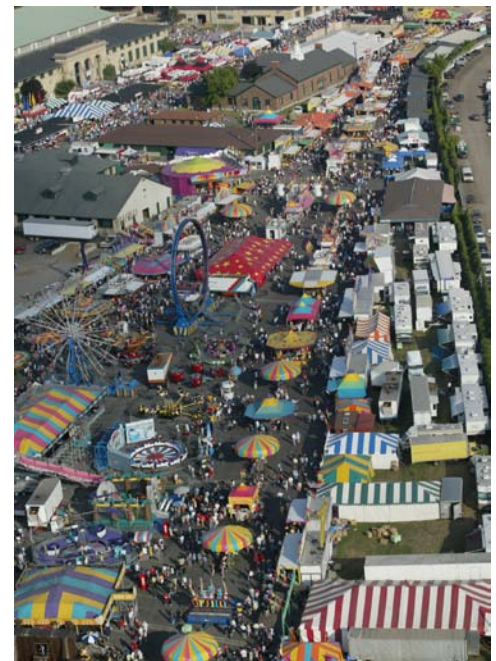

- Master Development Plan
- Facility Management
- Space Programming
- Phased Improvement Implementation Plan
- Design & Construction Administration of various improvements/projects

As part of the yearly planning, Bell & Spina developed a detailed plan of stand and booth locations. Fair Coordinators were then able to market exact parcels of land to vendors.

Bell & Spina's work has enabled the Fair's increase in attendance over the years. We take pride when hearing that "The Fair has never looked better!"
